# MEDICATION GUIDE

## ORIGINAL CONTAINTERS

All prescriptions must prescribed to the camper and be in their original containers with dosage instructions. Pill bottles should only include the amount needed for the session - leave the rest at home! Creams, inhaleers, or other boxed items must have a label on them.

EASY INFO FOR PACKING MEDICATIONS!

## UP-TO-DATE

Check the expiration date - all meds must be current!

## LEAVE OTC MEDS & VITAMINS HOME

Save the space! We stock plenty of OTC meds for occasional as-needed use. All vitamins require a doctor's note. If your camper takes a daily allergy med, please check it in at drop-off.

Be sure to have completed Medical Forms, during online registration, before arrival. If you have changes to your camper's medications or medical history after registration, please email us at the email below.
